

WEEKLY UPDATE

10/1/2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. This week, we've had 19 Residents and 9 staff members test positive. Since the onset of this virus, we have had 53 residents and 27 staff members test positive for COVID-19. As of Sept 2, 2020, DHEC is requiring all facilities to perform mandatory testing of all employees. Frequency of testing will be dependent upon the percentage of cases within that facility's county. As of right now, St. George Healthcare is conducting 2x/week testing. If positive cases are found, residents will also undergo testing. We are asking all families to not bring in outside food, drinks, or personal belongings at this time.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 843-563-4602.

Sincerely,

Vicki Sides, LNHA
